Yellow Fever Raging.

Lax Quarantine Regulations at
Linares—Dying Eight a Day.
Fever Spreading.

San Antonio Express:

Austin, Tex., Sept. 10.—State Health Officer George R. Tabor returned today from Eagle Pass, where he investigated the quarantine situation. He says that both the State of Texas and the United States are enforcing a rigid quarantine at that place against yellow fever infected places. Dr. Tabor has purchased two fumigating plants, one of which is to be installed at Laredo and the other at Eagle Pass.

Dr. I. P. Sessions of Rockdale, whom Dr. Tabor sent to Monterey to represent the State in quarantine matters, arrived at that place yesterday. A report will probably be received from him tomorrow. Dr. Tabor said today that he had received positive assurance that there had been two cases of yellow fever at Monterey before he established the quarantine.

He today received a letter from a resident of Linares severely criticizing the lax quarantine regulations in existence to prevent the people from that place going to Monterey and the United States. The writer asserted that it is an easy matter for one to go from Linares to Monterey. He says there is an absolute lack of sanitary precautions at Linares and that those who bury the yellow fever victims are permitted to go about and come in contact freely with the people of the town. The average death rate is about 8 per day. The town has a population of about 9000, and of this number about 4500 have gone into the mountains to escape the scourge.

He asserts that the yellow fever has spread to every town and village between Tampico and Monterey, and that cases are now reported at Montemorelos and Teran, situated close to Monterey.

Dr. Tabor will make a thorough investigation of the serious charges of lax quarantine methods which the writer makes in the letter.

Laredo, Tex., Sept. 10.—A specialist in bacteriology from San Antonio is now in Monterey, to remain until he can definitely state whether there is any yellow fever in that city or not.

At the town of Terana, about twenty-five miles from Monterey, a sister of the Rev. Benjamin Hernandez died Sunday with what was pronounced to be genuine yellow fever, which increases the apprehension here regarding the appearance of the fever in Monterey.

The proceeds of Orrin's circus and the theaters in Monterey last Sunday night were given to the fund for the relief of the Linares yellow fever sufferers.

Gov. Royce has requested the merchants of Monterey not to bring any goods from the port of Tampico during the prevalence of yellow fever there.

Uncle—How do you like your Sunday school teacher?

Tommy—O! She's got good sense. She's smarter than Mom is.

Uncle—Indeed? So you believe in her, eh?

Tommy—Sure! Her an' me thinks alike. She says Sunday school don't do me no good.

Rio Grande Up 15 Feet.

Gully Washing Rain at Laredo and
All Along the River—River's
Rise Here.

Laredo, Tex., Sept. 10.—Another record breaking rain fell here last night and this morning, the precipitation in twelve hours being 7.35 inches. It covered the entire Rio Grande valley on the American side, extending into Mexico only twenty miles.

Railroad traffic on the International & Great Northern, the Texas-Mexican and Rio Grande & Eagle Pass roads is entirely tied up today. Bridges and track on these roads are washed out to an unprecedented extent. A large bridge near Pearsall is gone that will require twenty-four hours to reconstruct. This afternoon's San Antonio mail will not reach here until some time tomorrow and the train from here to the north is not expected to get out until tomorrow afternoon.

The Texas-Mexican road is tied up at least forty-eight hours by the destruction of bridges and roadbed.

The Rio Grande is up fifteen feet. So great was the volume of water pouring into the stream from the arroyos and creeks just below the city that the inhabitants of Laredo observed the curious phenomenon this morning of a river flowing up stream. Logs and debris moved northward instead of southward until the noon hour when the river gradually assumed the natural flow southward.

BAILEY AND HOGG.

Politicians at Austin Interested in
Reported Political Alliance.

Austin, Tex., Sept. 10.—There is no little interest taken by the State officials here in the apparent effort that is being made in certain quarters to bring about friendly political relations between Senator J. W. Bailey and former Governor J. S. Hogg. It is asserted by those who are close friends of Hogg that the latter is willing to bury the hatchet and make friends with Bailey. Hon. W. A. Shaw, of Dallas, who has long been Mr. Hogg's ardent champion in political affairs seems to be hopeful that the two men will get together and work side by side for the best interests of political and material welfare of the State and country. The friends of Mr. Bailey at Austin are disposed to think that he will accept the advancement that may be made to establish friendly relations with Mr. Hogg. The outcome of the negotiations that are said to be pending with the view of bringing about this result is awaited with interest by the friends of these two Democratic leaders.

"I can't understand why a ship is called 'she,'" said Mrs. Gableton.

"And I suppose you lay awake nights wondering why a folding bed isn't called 'she,' don't you?" queried Gableton, who was trying to read his paper between interruptions.

"No, I don't think it ever disturbed my slumbers," replied Mrs. G. "But why isn't a folding bed called 'she'?"

"Because it shuts up occasionally my dear," answered Gableton, with a ghoulish grin.

CHOICE LANDS
